VOLUME 38

FRIDAY MARCH 21st 1941

NUMBER 47

Broadway Clowns Beat Union Jacks 40-38

In a game featured by close checking, fast playing, and two five minute overtime periods, the travelling Broadway Clowns, here for the second time this season, squeezed out a two point win over the Jacks in the second of the overtime periods to end the game with a score of 40-38.

Minus the help of Coach Turner, and guard Dunlop, the remaining personnel of the team went on to the floor and after the first few minutes of play literally played the Clowns off their feet and put up a defence that the Clowns couldn't penetrate and forced them to long shots in order to win the game. The crowd was on the edge of the seats all through the game, and nerves were frayed to ravelings as Clowns would notch a pair of points, only to have the Jacks equal it, and so the game was 34 all at the end of regulation time, 36 all after the first five minutes of overtime and the last five minutes Clowns scored then the Jacks, and then with just seconds to go the Clowns banged home another one, and just as the Jacks were getting their play organized for another basket the bell sounded and ended the game.

The Clowns admitted it was the hardest fought game they had played on their entire tour, and handed the Jacks a real bouquet for the type of game they played. Best of feelings on both sides featured the game.

Players and scores were:
Clowns: Boyd, 6; Bray, 14; Winter, 10; Miles 2; Matthews, 8; Total 40.

Jacks: Nalder, 10; Stone, 6; Mitchell; Micken, 9; Nilsson 8; D. Rolfson, 4; L. Rolfson, 1. Total 38.

Bert Leavitt and Wilson Rolfson had the whistles for the game.

In a hard fought preliminary Hill Spring defeated the Idlers by a 35-33 score in the intermediate league. This game was close all the way through and only three or four points divided the teams at any point of the game. Our Idlers have lost a number of games by narrow margins, and this was a heart breaker to see them lose by such a tight squeeze.

Like the Jacks, the Idlers were minus three of their regular lineup, but the balance of the team, played a great game all the way through and gave the fans a fine exhibition of ball.

LIONS MEETING

Lions Dean Rolfson and Mirza Pack were the speakers at the Lions meeting held Monday night. "A Letter to Hitler" by J. J. Freedom, and two poems, "The Joys of a Wife" and "The Knees Have It," were read by Dean in a very fine manner.

"The Nickel Industry at Sudbury, Ontario," was the subject treated by Mirza. The strict attention given by Club members proved they were enjoying this very interesting and educational talk, and Mirza sure knows his "nickels."

The Saving Certificate draws were won by Tom Allan and Joe McLean.

Owing to the Jacks-Clowns basketball game, and the final game of the Lethbridge-Calgary hockey series, the meeting was cut rather short. No roars, nor "Grandfather's Clock" to unlimber the vocal chords were indulged in. Roll call showed 32 present, and Lion Bob Fansett was in the chair.

ALBERTA'S NEW LICENSE PLATES BLACK & WHITE

Alberta's new motor license plates are likely to be available during the last week of March. E. Trowbridge, deputy provincial secretary, said in Edmonton last Saturday.

In all likelihood the plates will be issued for distribution on Monday, March 21, and the remainder of that week.

The new 1941-42 license year opens on April 1. In past years it has been the practice to allow motorists a short period in April to obtain their plates.

This year the color combination will be white on black, this having been selected so that there will be no clash with the Saskatchewan colors of white on vermilion.

SERVICES AT TRYELL'S LAKE

The first L.D.S. meeting in the Tryell's Lake branch for some months, was held Sunday afternoon at 2:30 p.m. when people from Wrentham, Barwell, Warner and Tyrell's Lake numbering about 60, gathered for meeting.

The building has just been renovated inside and out, and this meeting was one of dedication of the building and also thanksgiving on the part of Tyrell's Lake branch members for having a meeting place of their own, paid for and free from any encumbrances.

Pres. Melvin T. King of the State Presidency offered the dedicatory prayer and was one of the speakers, others being Elders H. Myron Holmes, Wilbur Johnson of Barwell and S. I. May.

Commencing next Sunday morning Sunday School will be held at 10 a.m. followed by the regular Sacrament services and will be continued steadily. Our congratulations are extended to the people of the branch and their friends who have assisted in the purchase and the renovating of the building, which stands now a distinct credit to the faith and fidelity of the membership of the branch and will be a source of pride to them in their ownership and a centre for their religious and social activities in that district.

NEWS NOTES

R. C. Farris of Lethbridge was a Raymond visitor Tuesday.

A. Audenart purchased a new Farmall and plow from the Raymond Mercantile Co., on Monday of this week.

Pres. M. T. King and H. Myron Holmes filled their Home Missionary appointment in Warner and Tyrell's Lake on Sunday last.

Karl Wiede and family have returned from Trail, B.C. where he has been in the employ of the Consolidated Mining and Smelting Co. He is working with J. McRoy Anderson in the John Deere Agency for the present season.

Mr. and Mrs. Ed. Campbell were in Cardston and Hill Spring the first of this week attending the funeral services of Mr. Campbell's father, William Warren Campbell a pioneer of the Cardston district who passed away Sunday in the Cardston hospital at the age of 71. Mr. Campbell was a freighter in the early days of Cardston and freighted from Lethbridge for the stores.

220 Honored Guests Present At Party

Described by many of those attending as the most successful yet held, the Honored Guests Shamrock party on Wednesday was largely attended and every one present seemed to thoroughly enjoy the entire afternoon and evening.

Dinner was served at 1:30, when 220 Honored guests and about 30 committee members sat down to the chicken dinner with all the trimmings and certainly enjoyed the repast. Following this the program was entered into, with S. B. Card as Chairman, and the following numbers:

Community singing, led by Wm. C. Stone.

Speech of Welcome by S. B. Card.

Highlights in lives of some of the guests by Heber Allen.

Stump Speech by Rhonda Dahl.

Reading by Calvin Reber.

Vocal solos by Bobby Litchfield and Jeannine Wilde.

Ladies Quartette: Mesdames L. L. Palmer, Emma Dahl, Scott Salmon and Blanche Seoville.

Vocal Solo by Leonard Purnell of Welling.

Violin Solo by Jonathan Smith of Welling.

A lunch was served at 6:30 to 175 of the Honored Guests who were still present, and in the evening all entered into and greatly enjoyed the Married Folks Dance.

The 1941 Wheat Plan

When we attempt to write on this matter, we will admit in starting that there are points on which we are not entirely clear, and therefore may make errors and if so, we hope to be corrected in the same.

The minimum price will be continued at 70c. per bushel, basis Fort William, and the Dominion Government are preparing to handle 20,000,000 bushels of new wheat at this price, which is estimated to be 65 p.c. of last year's acreage.

The quota delivery plan will be continued as in 1940 based on 65 p.c. of the farmer's total yield of last year. In other words where you delivered 100 bushels in 1941 you will only be allowed 65 bushels in 1941.

A bonus will be paid on summerfallow, amounting to \$1.00 per acre for fallow that is still black and unseeded on July 1st, 1941. If this 35 p.c. acreage is seeded to grass, hay or winter rye or other coarse grain the bonus will be \$2.00 per acre.

The Dominion Government estimates that 35 p.c. of last year's seeded wheat acreage is nine million acres, and that if all this is summerfallowed it would cost the Government \$36,000,000, which they would rather assume than to have the additional wheat to store. It is, however, expected that much of this acreage will be seeded to coarse grains, hay or grass, and thus the payment will be reduced and the feed supply of the Dominion will be thus increased which will possibly tend to an increased production of livestock across the prairie provinces.

If our interpretation of the ruling is correct, this summerfallow bonus plan is applicable ONLY TO LAND NOW SUMMERFALLOWED. That is, only land that was prepared last year for seeding to wheat this spring will be considered as in line to earn the bonus. Any stubble land from last year's crop, worked and planted to any crop this year will not earn a bonus.

The large stocks of wheat in storage both in elevators and on farms is creating a tremendous problem for the government, and in order to control this surplus at a figure where it can be paid for and kept with out too much cost, this bonus plan is introduced. While the plan is capable of serious abuse by farmers, it is the hope of the Dominion and the Wheat Board that farmers will co-operate and will seed their 65 p.c. to grain as usual, and either seed coarse grains, grass or hay on the balance, and not try to take the last acre out of production of any crops in order to earn the proposed bonus. As good Canadians we should do this.

Some have intimated that they would plant all their summerfallow to wheat. Sell what the Government would take and store the rest. We believe that where this can be done, without any undue hardship being worked on creditors, that it is a good idea. Wheat is easily stored, it does not deteriorate, and next possibly to money in the bank, it is one of the best assets we can have. It will at least fill our tummies in case of a shortage of food, and if the war ends quickly, and we all hope it will, there will be a demand for wheat unprecedented in the history of mankind.

We are not criticising the Government. With the huge surplus now in storage, some measure of control had to be inaugurated. At the same time, the farmer with a full bin of wheat can face the tomorrow of the world's history with a degree of confidence unknown by the masses of mankind. A cellar full of vegetables and a granary full of wheat would be a good slogan for every farm family in Western Canada.

Lee Brewerton was in Calgary the first of the week on business.

If you haven't bought your Certificate yet, you should by all means. Join the happy monthly savers.

Mrs. Geo. O'Brien of Kindersley, Sask., and Mrs. D. C. Peterson of Cardston, daughters of Mr. and Mrs. D. A. Bennett have been at home for a week or so for a visit with relatives and friends.

MCNEELY LOCAL CALGARY POWER MAN

C. McNeely of Warner, has been stationed in Raymond as Calgary Power Man for the district including Raymond, Stirling and Welling. He assumed his duties on Monday of this week, when he was around the town getting acquainted and helping Lloyd Christensen read the meters.

Lloyd Christensen of Magrath, who has been in charge since Frank Thorpe left last fall, has been transferred to Claresholm and will leave for that town just as soon as things are adjusted here. We wish Lloyd success in our neighboring town and we hope that Mr. McNeely will have much joy and satisfaction in his work during his sojourn in Raymond.

"The Wingless Victory" Saturday Night

NEWS NOTES

W. E. Ross, Calgary Power Superintendent of Lethbridge was here last Friday.

CONSCRIPT YOUR QUARTERS AND DOLLARS TO BUY WAR SAVINGS STAMPS.

The Raymond Coffee Shop installed a fine new Electric sign on Thursday. We are anxious to see how it looks at night.

It looks much better on a printed letterhead or envelope and the cost is really reasonable. Come in and see. —The Recorder.

Bring your printing problems to us. We are never undersold when quantity and quality of material are considered, and we need the work. Our Phone is 21

We are in receipt of a letter from Pte. Ralph Powelson, in Nova Scotia, asking us to send him the Recorder, which we are very glad to do. Ralph did not write any news in his letter, but we assume that he is doing well in his training. We were very glad to hear from him.

J. H. Walker, M.L.A., and Independent Group Leader was at home Saturday and part of Sunday returning to Edmonton on the night train from Lethbridge. Mr. Walker has been a busy man in the opening weeks of the house getting acquainted with procedure and with his new job as leader, but was feeling fine.

Phil Baker was a Raymond visitor Monday and was a visitor at the Rotary Club luncheon, where he also spoke briefly on the recently announced wheat policy. Warren Jones also spoke on "Marriage" and its evolution to its present state, and gave some information on divorce laws. It is lucky for the ladies that the only listeners were respectable and law abiding Rotarians.

The spring blizzard which struck here Saturday really went to town as it travelled east. At the Kircaldy ranch on the ridge it was 26 below zero all day with the snow driving in a real blizzard until nearly dark. As the storm passed into Manitoba and the Dakotas, the wind reached 50 miles an hour and four people in Manitoba and 48 in the border states lost their lives from exposure. A mother and her six year old daughter in Manitoba froze to death huddled under their overturned cutter within a half mile of their farm home.

In a history making speech delivered Saturday night and re-broadcast on Sunday, President Roosevelt speaking on the recently passed lease-lend bill made it very plain just where the United States stands in respect to her aid to Britain and the Axis powers will not need to wonder what he meant. Materials were all ready on their way to Britain, and as the tempo of production in the United States factories was increased the shipments to the Allies will increase, and if it becomes necessary United States ships will furnish the escorts for these cargo vessels. No doubt Hitler's dreams following his listening to this speech were beset with bad dreams after listening to such a tirade of use upon his powers on policies in the nations now under the Nazi heel. The decision is bound to make a very great difference in the attitude of the Allies in their decision and actions.

NEWS NOTES

D. H. Keeler of Magrath was a business visitor in Raymond Monday.

Fred Turner went to Calgary Monday to attend the funeral of his brother-in-law Dr. H. N. Heel, dentist, who passed away suddenly over the week-end.

Speakers at the 2nd Ward Sacrament meeting Sunday evening were Elders Ellis S. Heninger, A. W. Jones and Carl Salmon. A large attendance listened to the talks.

CHANGE PASSPORT REGULATIONS FOR VISITORS TO UNITED STATES

EFFECTIVE APRIL 1, NEW PASSPORTS AT \$3. GOOD FOR 10 YEARS

Ottawa. —Passport regulations for Canadians desiring to visit the United States will be changed as of April 1, the passport office of the external affairs department made known today.

At that date issuance of special one-year passports at a cost of \$1 will be discontinued and the policy will be to issue passports which, with renewals, will be good for 10 years.

These will cost \$3 when first taken out and will be good for two years. They may be renewed at two-year intervals at a cost of \$1 for each renewal so that the life of the passport is 10 years.

This new passport will replace the former regular passport which cost \$5 for five years and was renewable for another five years for \$2.

An official explained decision to discontinue issuance of special \$1 one year passports was taken because the emergency which existed last year when they were inaugurated now is past.

These passports were brought into being after the United States, with short notice, required Canadian visitors to produce a passport. Passport facilities were over taxed with thousands of Canadians desiring to visit the United States and, to meet heavy demand the simple one-year passport was issued.

Now, it was said, the passport division has been organized to meet all demands and the new 10 year passport for \$7 has been brought into being for issue after April 1.

One-year passports issued up to April 1 and good for one year from date of issue will remain in force until their expiration, an official said.

THERE'LL ALWAYS BE AN ENGLAND

Do we, as Canadians in a beautiful land, never scarred by battle or revolution, appreciate what the people of Britain are going through during these trying days? Can we picture in our wildest imaginings fire, lighted by incendiary bombs that light the sky for forty miles in each direction, and in the midst of these fires men and women fighting the flames, helping the injured from the death traps where the bombs caught them, and laying the dead out for reburial and burial? Can we feel one thousandth part the mental agony and anguish of mothers, wives and sweethearts of the men in active service, facing up hourly to air raids, submarines, and sea raider attacks? Truly we are a blessed people in a blessed land.

It is hardly understandable that some people take the attitude they do to the request of our government leaders for our help in keeping the battle to the old land. Surely we would rather sacrifice our dollars for governments and munitions to keep Hitler in Germany, than to have to mobilize here to protect our cherished and much loved cities, churches and homes. It is incredible that our government should squander even a dollar on non essentials. If millions are made out of war contracts in any line, our Dominion government and cabinet members are decidedly at fault. If any man would stoop so low as to make merchandise out of the life and blood of his fellow countrymen, that individual is too low to call a man. We are all in the front line, and as we are, we should do our utmost to strengthen the hands of the defenders of peace, liberty and justice.

Our town, municipalities, provinces and Dominion should curtail commissions useless boards, technical advisers, and so on, and cut taxes to the bone and if they have a surplus, invest it in war bonds and if they cut until they have no surplus, they will at least be leaving the money with Canadians, whom we believe will invest this money for the benefit of Canada's war effort.

"Stand up," shouted the colored evangelist, "if you want to go to heaven."

Everyone got up but one old man.

"Don't you want to go to heaven my brother?" shouted the preacher.

"Sho," said the old man, "but I've not gwine with no excursion."

THIS IS MEANT FOR YOU

The campaign for funds for Canadian War Services will get underway next week. A number of people will be canvassing and we bespeak a courteous and friendly reception for them, and a cheerfulness in contributing. The canvassers are not mendicants. They are responsible people imbued with a sense of responsibility to our fighting men. They are citizens trying to do their duty. People approached should appreciate this.

This war is approaching a climax. Our Canadian boys are facing great and unknown perils. Surely it is not asking much that each of us at home should contribute funds to keep going the war services that mean so much to our soldiers, sailors and airmen!

Don't grumble at being asked for a few dollars or a few bushels of wheat. After all what have you done, what risks have you run, what prospective dangers do you face, compared with what Canada's fighting men are doing, and risking on the battle fronts of the world?

The slogan is: "We cannot let our boys down."

The truth is we dare not let them down. Surely we are made of better stuff than to even think of failure.

YOU do your part and all will be well.

WHEAT CONTRIBUTIONS ACCEPTED

Wheat contributions will be accepted by the Canadian War Services Fund. The Wheat Board will take deliveries over farmer quotas and the bushelage does not have to be registered in the farmer's permit book. In this way farmers can help this worthy cause without having to dig up cash. District organizations should arrange for "wheat drives". Farmers may deliver their contributions to any elevator in which there is space and arrange to have the cash ticket made out to the "Canadian War Services fund."

SHE MEANT WELL

Sam Jones, the great white evangelist, on one occasion had preached a fine sermon to an immense concourse of colored people. After he had finished a stout old colored woman waddled up to him, seized his hand, up and down vigorously. "Gawd bless you, Brudder Jones! You is everybody's preacher, black as well as white. You may have a white skin Brudder, but you is sho got a black heart."

"After listening to the radio now for some years," said Mr. Smith, "my family have decided to have a little orchestra of their own. My wife is learning to play the banjo, Willie is learning to play the flute, Ernest rather fancies himself as a jazz drummer, and Doris and Mildred are learning the violin."

"And what are you learning?" inquired Brown.

The other made a grimace. "I'm learning to bear it!"

JUDGE NOT TOO HARD

"Pray don't find fault with the man who limps,
Or stumbles along the road,
Unless you have worn the shoes he wears,
Or struggled beneath his load.
There may be tacks in his shoes that hurt,
Though hidden away from view.
Or the burden he bears, placed on your back
Might cause you to stumble, too."

Don't sneer at the man we's down today,
Unless you have felt the blow
That caused his fall, or felt the shame
That only the fallen know.
You may be strong, but still the blows
That were his, if dealt to you
In the selfsame way at the selfsame time
Might cause you to stagger, too."

Don't be too harsh with the man who sins,
Or pelt him with words or stones,
Unless you are sure, yea, doubly sure,
That you have no sins of your own.
For you know, perhaps, if the tempter's voice
Should whisper as soft to you
As it did to him when he went astray,
'Twould cause you to falter, too."

He: "If I had a million dollars, do you know where I'd be?"
She: "I'll say- you'd be on our honeymoon!"

WEEKLY LETTER

FEEDING GROWING POU-
LTRY STOCK

In a previous Weekly Letter dealing with the feeding of baby chicks, it was stated that we would deal with feeding of growing stock in a following Letter.

At from six to eight weeks of age the chicks are gradually changed from the starter to the growing mash, which at this Station is made up as follows:

Ground Wheat	40 parts
Ground barley	20 parts
Ground Oats	20 parts
Beef Scrap	15 parts
Bone meal	5 parts
Fine salt	1 part
Charcoal	2 parts

To this is added one per cent of cod liver oil as long as the birds are confined in the brooder houses but when they are placed on the summer range, the cod liver oil may be omitted. Alfalfa leaves are also fed daily when the birds are confined and calcium carbonate is made available in hoppers at all times.

At this age, the birds are changed to grain mixture which consists of:

Wheat	2 parts
Barley	1 part
Oats	1 part

During the early growing period, this mixture constitutes about one-third of the total ration, but is gradually increased to one-half the total ration.

The aim of the producer is to have the birds of the heavy breeds, such as Rhode Island Reds and Barred Plymouth Rocks, reach sexual maturity at about six months of age but it is quite essential that body development be well advanced before the first egg is laid. This

can be controlled to a large extent by regulating the proportion of mash and grain mixture. If the birds appear to be coming into production too early the proportion of grain mixture should be increased and if the birds are approaching full body development and not showing signs of production, the mash consumption should be increased by cutting down on the grain mixture. The ability of the flock owner to gauge development will determine the success of getting egg production started at the right stage of body development. This can be learned only by experience.

In conclusion, it should be stated that many satisfactory rations are in use by various producers. They may differ in detail but an examination of them will show that they are all formulated on the same basic principle of supplying all the various types of ingredients which are required by the growing bird. As long as this principle is followed the details of the mixture are relatively unimportant.

NEWS NOTES

Ernest Reithman, painter and decorator has been working in Lethbridge for the past couple of weeks.

Mr. and Mrs. Arthur Dahl of Cardston spent Wednesday and Thursday here with relatives and friends, and attended the Old Folks party.

Geo. Brewerton was home from Calgary over Sunday returning Monday afternoon. Hugh Layne, a student in the aero mechanics school there was passenger home and back with George.

WE SHOULD ALL READ IT.

There has been published for popular circulation in Canada a cheap edition of Daphne du Maurier's excellent book, "Come Wind, Come Weather."

The cost of these volumes will be so small that I would recommend every Canadian man, woman and child to secure a copy.

For this is the book that is said to be responsible above every other single factor for the astounding morale of the British people. Millions of copies have been circulated in Great Britain. Every public air raid shelter has been supplied with them.

It is a magnificent book because it describes in simple, fictional style just what the war means to the people of the British Isles and the splendid way in which they have responded to its dangers and privations.

It describes the spirit in which the ordinary man and woman have faced up to the challenge of war. It tells of the spiritual changes that have been wrought in their natures by the sacrifice and suffering they have cheerfully endured.

In years to come, there will be written exhaustive histories of this war telling of every material detail of the struggle. We will learn the intricate story of airplane development, of bombing destruction and all these multitudinous facts upon which victory will eventually be built.

Daphne du Maurier's "Come Wind, Come Weather" is a history of the war that does not need to wait for the war's consummation. It is the story of a battle already won, of the biggest victory in the history of mankind—the victory of dauntless souls over themselves.

This is a stirring tale of inward conquest that should and must be repeated in this, our country.

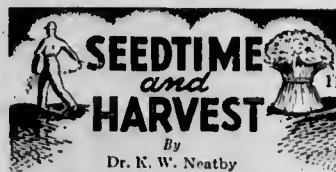

Every Canadian should read these simple and moving stories of real people.

NEWS NOTES

Most of this week has felt really like spring. A high wind blew Tuesday, but Wednesday and Thursday were nearly perfect days and the frost is coming out of the ground rapidly now.

One of the heaviest bombings of London of the entire war was unleashed on the city Wednesday night, but the fire-fighting crews were on the job and when daylight came Thursday morning all of the fires were out. Loss of life is believed to be very heavy in this raid.

Jas. E. Meeks and his daughter LaVonne were in Calgary the first of the week on business in connection with LaVonne's departure for her mission. She has been called to the United States and there seems to be no end of trouble over her passport, transfer of monies and so on. It was on some of these matters that the trip was made.

Dr. K. W. Neatby
Director, Agricultural Department
North-West Line Elevators Association

Will Soil Wear Out?

The answer is definitely yes, unless present methods of crop production are altered.

Four years ago, the Department of Soils of the University of Alberta made a study of the nitrogen and organic matter content of cultivated soils and neighbouring virgin sod at 32 widely separated points in Saskatchewan and Alberta.

In this study, the four major soil zones (black, dark brown, brown and gray) were all represented. It was found that, as a result of cultivation, the black soils had lost 18% of the original nitrogen and 21% of organic matter. The dark brown soils lost 22% of nitrogen and 26% of organic matter. The loss in brown soils amounted to 20% of the nitrogen and 27% of the organic matter. The gray soils, naturally less fertile than the others, were found to have lost 35% of the original nitrogen and 42% of the organic matter.

The above figures were obtained from analysis of the surface six inches of soil. In general, subsoil losses of nitrogen were slight, but organic matter losses considerable.

The authors state (Scientific Agriculture, Vol. 19) that "...it is clear that the straight grain and fallow system has not maintained the nitrogen or organic matter content of western Canada prairie soils."

LINE ELEVATORSLocal Organizations to be Set
Up in Every Community.

"Drop your scrap iron on Berlin" will be the slogan of a drive sponsored by local Line Elevator Agents in which all farmers will be asked to donate their scrap iron to aid Britain.

Plans are now under way for organizing every community for collection of scrap iron in Western Canada. Local Boards of Trade, Weekly Newspapers, Church Societies, farm organizations and all local associations will be asked to co-operate in the drive for collection of waste scrap iron. Its ultimate destination will be Germany via British bombers. In this manner, farmers will be enabled to give their direct reply to Hitler for his bombing of British cities.

The North-West Line Elevators Association has arranged with all Line Elevator Agents to act as collecting agencies for the scrap iron. The preliminary organization for each community will be set up during the next few weeks and actual collection and shipment will take place between June 15 and July 15. It is felt that this date will best fit in with farming operations.

The only expense to be incurred in the organization of the "Drop your Scrap Iron on Berlin" campaign will be freight charges. The entire proceeds other than freight will be turned over to the Patriotic Salvage Corps.

An Arkansas editor recently was showing his genius when he penpamphlet the following quip for his paper:

"Miss Mary Blank, a Batesville belle of twenty summers is visiting a twin brother, William, aged 32."

RETAIN THE OLD VIRTUES

It is impossible for people now to go back into history dragging out old fetishes which once put a spell upon humanity. People have grown wiser and wiser. There cannot possibly be any return to that simplicity of mind which existed before the age of science. It would be folly for anyone to imagine such a thing is possible. We must go forward.

We must readapt our minds to new conditions not afraid of change yet never abandoning the real values which belong to history and tradition. These values are not old and outworn because truth and beauty have no age and the spirit that moves through the endless adventure of life is forever young.

But we must discipline ourselves for Britain has shown that morality is bound up with patience resignation self-mastery and renunciation. She has

Last week and the first of this week, local elevators shipped out about 35,000 bushels of wheat from storage. 20,000 bushels left Thursday and Saturday, and this were shipped Friday for an additional 15,000 that went out the first part of this week. This will allow some space for farm stored grain.

John Taylor, who left last week for Eastern Canada with a shipment of lambs, wrote back to his folks from Winnipeg, Man. He expects to meet Willis in Toronto when Willis is released from his mission, and they will bring a new Dodge home for O. H. Snow, travelling to Salt Lake City for Conference and then on home.

also proven that it is not in the power to act that men and nations prove themselves, but in the power to endure.—Brooks Bulletin.

PREMIER AND A. R. P. WORKERS

Mr. Winston Churchill, British Prime Minister, was inspecting A. R. P. workers when he paid a visit to Scotland. Accompanying him is (right) the Lord Provost of Glasgow.

CHANGE IN ADDRESSING MAIL FOR TROOP'S OVERSEAS AND CANADA

Postmaster General Honorable W.P. Mulock announces that owing to the recently authorized change in the title of the military forces of Canada, the designation "Canadian Army" will now be used instead of "Canadian Active Service Force (C.A.S.F.)" Mail for soldiers on active service should, therefore, now be addressed as follows:

Mail For Delivery Overseas
The designation "C.A.S.F." is to be omitted and the words "Canadian Army Overseas" substituted therefore, as follows:

Regimental No., rank and name
Name and details of Unit (i.e., Company or Section, Squadron, Battery, Holding Unit etc.)

Name of Regiment or Branch of service
Canadian Army Overseas.
For Example:
K-52937, Pte. John Blank,
"P" Company

Seaforth Highlanders of Canada.

Canadian Army Overseas.
B-12345, Cpl. A. J. Jones,
1st Anti-Tank Regiment
Royal Canadian Artillery,
Canadian Army Overseas.
M-54321, Sign. John Smith,
No. 3 Company, 2nd Div.

Signals
Royal Canadian Corps of Signals
Canadian Army Overseas.

Note—If a soldier is overseas the word "Overseas" must appear in the address, but no place name.

Mail For Delivery in Canada

The usual complete particulars—regimental number, rank and name and details of unit and name of regiment or branch of service, and in addition, the Post Office name of the place in Canada where the soldier is stationed, must be given.

For Example:
C-13962, Pte. Joseph Wood,
No. 7 Field Hygiene Section
Royal Can. Army Medical Corps.

Debert F.P.O., N.S.
G-12345, Gnr. John Jones,
15th Heavy Battery,
Royal Canadian Artillery,
Saint John, N. B.

Note—If a soldier is in Canada, the name of the place at which he is stationed must appear in the address.

The regimental numbers and names given in the example are of course, fictitious and are merely used to illustrate the

THE REAL LEADERS

It would seem that Canada is all wrong about electing a government and placing in its hands the right to name a cabinet to run the country and the war (Or should it be the war and the country?)

The men in charge are nincompoops and incompetents, it now appears. The editor of The Financial Post should have been given Mr. Howe's job, the editor of The Globe and Mail (Toronto) should have been selected for Mr. Ralston's position and the editor of The Ottawa Citizen made minister of finance. Then the editor of the Winnipeg Free Press might have been tossed in as premier.

Some of the editors of Canadian newspapers know all about how to turn out munitions, make airplanes, run the country's business in general and win the war. For gosh sakes! Why have we been so blind in not getting them into their proper jobs when the opportunity occurred.

We never imagined that there were so many marvellous men running around loose! Say, they know almost everything about everything.—Brooks Bulletin.

RESULTS OF A HAY DIET

Vegetarian's Husband (timidly)—"Do you know my dear, really think we ought to have a bit of meat once in awhile. Three times last night I caught myself whinnying."

"Good morning," said Mrs. Binks entering the baker's shop. "Permit me to compliment you on the wonderful lightness of your bread!"

The baker rubbed his hands and smiled.

"Thank you ma'am," he said.

"It is my aim to bake the lightest loaf in this town."

"And you do it," said Mrs. Binks. "If it gets much lighter it will take two of your pound loaves to weigh sixteen ozs!"

The recruit was disappointed in his uniform. It seemed to fit nowhere.

He was still trying to make the buttons of his tunic meet when he passed the colonel on the parade ground. And in his pre-occupation he forgot to salute.

"Pull yourself together," said the colonel. "Don't you know you're wearing the King's uniform?"

"Oh, that's it," said the recruit. "I knew it was never meant for me!"

NOT SO DUMB

In a small town in the South, there was a lad who had the reputation of not being very bright. People there had fun with him several times a day by placing a dime and a nickel on the open palm of his hand, and telling him to take his pick of the two. In each case the lad would take the nickel, and the crowd would laugh and guffaw.

A kind hearted woman asked him one day, "Don't you know the difference between a dime and a nickel? Don't you know the dime, though smaller, is worth more?"

"Sure I know it," he answered, "but they wouldn't try me out on it any more if I ever took the dime."

If we can't have guns as well as our usual chocolate bar, soft drink, cigar or cigarettes, then let's have the guns. BRITAIN MUST WIN.

By their victory Monday at Lethbridge Maple Leafs eliminated Calgary Stampede and won the right to go into the Dominion finals as Alberta's representative. It was a bitterly fought game and a well earned victory for Lethbridge and we wish them success in their playoff assignments.

Our local School Board journeyed to Magrath Tuesday after noon for a meeting with the Magrath Board re the joining of the enlarged district. Recent developments were discussed, but the situation remains the same, Magrath would benefit and would favor joining the big unit, Raymond on the other hand would lose directly, and is in favor of either a larger Consolidated district centering on Raymond or else remaining as we are.

HERE'S A LOW COST PLAN TO

help your studies!

A New Valuable TOOL IN EDUCATION

Recent tests, conducted by prominent educators, have shown parents, educators, and students that the portable typewriter is a most valuable educational tool. In a dramatic two years series of tests they have proven that most children improve grades as much as 14% when using a portable typewriter.

An unexpected outcome was that, in addition to betterment in Composition, Geography, History, Science and even Arithmetic, self expression became easier even for shy students!

You, too, can have this marvelous educational aid—for Remington Rand makes it easy to get! Only a small deposit, and terms as low as 10¢ a day, will bring you the Remette Portable, other models a trifle higher. Read what prominent educators say about student use of typewriters. Send for Free Booklet.

Remington REMETTE PORTABLE

Lowest priced complete standard portable in Canada. Full standard keyboard, shift keys, shift lock, back spacer, margin stops. Extra strong geared type action, nothing that can get out of order. Full mechanical guarantee. You'll be thrilled when you see how easy it is to type with the Remette Portable.

FREE! 32-PAGE TOUCH METHOD INSTRUCTION BOOK

with any Remington Portable you buy. It contains lessons, exercises, charts and illustrations to help teach you typing by the touch method.

SPECIAL CARRYING CASE

Included in the purchase price of your Remington Portable is a smartly designed Carrying Case.
